GROUND BROKEN FOR CHEM. BUILDING

President Richmond Turns Over
First Spadeful of Dirt to
Be Removed.

FORMAL CEREMONY

Amsterdam Building Co. to Start
Excavating at Once.

Ground was broken for the new Butterfield Memorial building at 12:45 Wednesday noon. Many students were present to witness the ceremonies presided over by Dr. Edward A. Ellery. President Richmond turned over the first spadeful of dirt to be removed in the excavation for the new building.

Dr. Ellery opened the ceremony by saying:

"The building that is to be erected on this site will be devoted to the teaching of the fundamental principles of chemistry. It is hoped that it will also be an inspiration, as it offers facilities, to add some items of knowledge to what is already known of the great science.

"Important as these things are in the training of young men, we know that there are some things of greater importance. It is our plan and ambition to make this building one more of the splendid influences with which Union College surrounds her sons. We desire to send forth from it young men who have learned not only the foundations of chemistry, but as well the foundation virtue of life. Because this is our purpose, I have asked Dean Ripton to read from the Holy Bible the conclusions of an ancient scientist on the real meaning of wisdom."

Dean Ripton read the 28th chapter of the Book of Job. This was followed with a prayer.

Dr. Ellery then handed the spade to President Richmond, saying:

"President Richmond, it is peculiarly fitting that you should be the first to break ground for this new building. I know better than anyone else, except perhaps yourself, that, if it had not been for you Union College would never have had this building devoted to the purposes for which it is intended. We are all grateful to you for what you have done and trust that the future will bring to you ample satisfaction for the efforts you have put forth to give Union College an adequate chemical laboratory."

After a short speech by President Richmond, in which he touched on the need of the building, and the part it would play, the spade was given to Dean Ripton.

E. A. MEAD TO GIVE READING OF "THE SERVANT IN THE HOUSE" AT VESPERS SUNDAY

On Sunday next Edward A. Mead of New York will present an interpretative reading of Charles Rain Kennedy's symbolical play, "The Servant in the House." Mr. Mead will appear in the chapel, his reading supplanting the regular vesper services which end with this meeting.

As a play "The Servant in the House" is too well known to require comment. In reviewing its recently the New York "Times" said: "Not in a lifetime has such a wonderful play been created—so great, so compelling, so akin to all the great and permanent things in life." The New York "Post" commented that, "It is a play that thrills the hearer with glowing and healthful emotion,

and sends him away with a softened and chastened heart."

Mr. Mead is a dramatic reciter of note and has appeared in Schenectady on various occasions, his last visit being in the spring of 1916 when he presented "Damaged Goods" at the City Y. M. C. A., attracting large audiences at each rendition. Each spring he makes a tour of the notable colleges in the east, and through the efforts of the Union Y. M. C. A. he has been secured for an appearance on the Union campus.

Although the expenses incident to the affair have been high, no admission will be charged, and the students and faculty are invited to be present. The service will begin at 3 P. M.

FACULTY RECOGNIZES MILITARY WORK

Will Allow Students to Substitute
Military Training for One
Three Hour Course
of Study.

The college faculty in meeting Wednesday afternoon prepared a regulation recognizing the military work of the students, and approving a course in military training for the rest of the year. The course will consist of military drill and two of the five following courses: Training for non-commissioned officers, code reading, signaling, map reading and sketching and military engineering. Students taking this course may at their request be excused from further attendance upon one three hour-a-week course, provided one can be found under certain restrictions.

Those who wish to take up the work will have to make arrangements with the class committee-men. No student will be allowed to drop a course without permission. An examination will be given in the course dropped and in military drill. No one deficient in a subject will be allowed to drop that course, nor will any substitution be allowed in the strictly technical courses which are essential to the work of the following year.

The purpose of this action is to enable undergraduates who so desire to devote more of their time to the preparedness plans and still maintain their standing in their regular class work.

PUBLICATION BOARD WILL MEET MONDAY

The Publication Board will meet at four o'clock Monday afternoon, at which time they will elect the editorial board of THE CONCORDIENSIS for the ensuing

LARGE SQUAD AGAIN REPORTS FOR PRACTICE

Homer Goff and Vard Cantey
Showing Up Well in
Pitcher's Box.

Due to the military drill on Tuesday the first baseball practice after Easter vacation was held yesterday afternoon. A large squad reported and several new men came out for the first time. The outfielders were given considerable practice in fielding long flies. A great deal of time was spent at batting practice and at sliding bases. Homer Goff and Cantey were in the box and showed up very well. Goff's cross fire ball was particularly effective. At base sliding "Hal" Wittner and "Corky" Moynihan showed up particularly well, while Frank Peaslee did some very good work at shortstop.

The position of catcher is now ably filled by Wittner. Hochuli and McCauley. Wittner perhaps is especially good at throwing to the bases, and his present performances bids ill to the base stealers.

Coach Tamsett is giving the men a great deal of practice in the fine points of the game and is fast developing a good team. "Jimmy" occasionally gets in action himself and gives the squad an illustration of how the game should be played.

The first game of the season was to have been with Columbia on the twentieth of this month but due to the fact that Columbia has cancelled all her games, this date is now vacant. Therefore unless the date is filled soon the first game will be with the Crescent A. C. of Brooklyn on the twenty-first of the month.

year, and will also choose the manager of the paper.

STUDENTS HAVE FIRST OUTDOOR DRILL

Instructed in Double File Move-
ments and Obliques for
Two Hours.

DOUBLE TIME WELCOME

Will Drill Two Hours on Tues-
days and Thursdays.

The first outdoor drill of the Union College Battalion was held on the campus Tuesday afternoon. At four o'clock the men assembled near the South College and were put through two hours of stiff drilling by Captain A. M. Jackson. A number of students who have had military training at Plattsburgh and military schools assisted him. The students were divided into four platoons, each under its own instruction officer and maneuvered as a separate unit. The training was mainly in double file movements and obliques. The instruction in the double time was appreciated by the men who welcomed the chance to warm up, for a heavy cold wind was blowing down the valley and across the field.

The battalion will drill two afternoons a week, on Tuesdays and Thursdays from 4 to 5 o'clock for the present. Further developments in the war situation may result in additional drill hours. The afternoon recitations, which have heretofore started at 1:30 o'clock will now begin at 1 o'clock so that all the men will be free to participate in the drills.

Baseball practice will be at 2:30 on those days.

WILL NOT FORM SEPARATE COMPANIES

President Richmond Gives Plans
of Trustees for Training
Officers.

At chapel on April fourth, President Richmond spoke to the students of the plan which the trustees had adopted with regard to the war situation, and urged every student to consult him before enlisting.

He said in part:

"It may not be necessary, but in order to avoid any possible misapprehension I wish to state again that the plans of the trustees for this college do not contemplate the formation of many separate companies for military service. Our object is to train officers and in this we are acting upon the advice and at the request of the government. I desire to make this especially clear to the engineers. Dr. Landreth and I have come to a

The breaking of ground for the Chemical Building Wednesday noon marked another step in the progress of old Union. Especially is it an evidence of prosperity in such times as these, when universities all face the prospect of having next year but a fraction of the student body which they now have. The confidence of the trustees is admirable.

This building, given to Union College as a memorial to General Daniel Butterfield by his widow, cannot but express the faith of alumni and trustees in the fact that after the war, Union will be bigger and stronger than ever. The moral effect of seeing the erection of this building, even while students are enlisting, is one which it is hoped will strike visitors here with the impressions which we feel, and end ultimately with the largest enrollment in our history.

President Rush Rhees of the University of Rochester, told the students that he could not declare too much his belief that college men are the natural objective of the first summons.

"Undoubtedly," continued Dr. Rhees, "they would respond promptly, but to take it for granted that that very special selection of young men which has led the groups who are now in our colleges and universities should be relied upon for the men who are to rise first in the defense of our country's honor, is the most shortsighted mistake that I can conceive of.

"This group has been trained for leadership. Assuredly a national policy which would make them the first victims of war would be a most tragically foolish policy for a country to adopt. That is what happened in England. England's loss of men who were destined to

be leaders in the next generation has been appalling. Their service is worth more in another direction than in the direction in which they gave themselves.

"I am sure that in case of necessity your response would not be hesitant or slight. Your response, however, should lie in a somewhat different direction than in personal volunteering. Our country needs to think as the country has not thought for more than a generation. Our forefathers thought in revolutionary times; that is the reason they fought. Now the country must think at this juncture.

"We may or we may not be dragged into actual conflict. We cannot tell. No one today knows what is before. The thing that is clear is that in this emergency what the country most needs is clear, rational thinking, a fearless vision of facts with reference to the conditions of the world life today and a courageous consideration of what democracy means in view of those facts."

Y. M. C. A. NOTES.

The Sunday Vespers services will be hereafter discontinued, the last being Sunday, when Mr. E. A. Mead of New York will recite "The Servant in the House."

Missions Study classes have been discontinued for the season. The English to Foreigners classes will continue as usual. This work has been highly successful, and about 100 foreigners are attending the classes. Meetings are held in the "Tank" and "Boiler" shops at the Locomotive works, and evening classes in Silliman Hall. About thirty students are acting as teachers.

The directories of foreign students attending American colleges are received at Silliman Hall. The book is an important one to foreign students, and the Union men should ask for their copies immediately.

Plans are being made to secure a delegation to represent Union at the Northfield Conference held for students at Northfield, Mass., from June 19 to 27th. Many noted speakers will attend this year's conference, some of them being J. R. Mott, R. E. Speer and Prof. H. R. Mackintosh of Scotland.

THE CONCORDIENSIS wishes to correct a statement appearing in a former issue with regard to military training at Hamilton to the effect that 196 students out of 212 in college, have enrolled in the voluntary infantry corps there and are regularly drilling.

Williams College is organizing three or four Naval Coast Defense Units, to act with the government in guarding the New England coast in case of war.

MUSICAL CLUBS GO TO JOHNSTOWN FRIDAY

Will Be Last Concert of Season.
Saratoga Date Cancelled.

The Union College Musical Clubs will close the season with a concert at Johnstown Friday evening. The concert, which is being held under the auspices of the Johnstown Anti-Suffrage Society, will take place at Willard Hall. Those who will take part in the concert are to leave Schenectady on the 4:00 o'clock P. M. J. & G. limited. Mrs. F. N. Neuendorf, head of the Reception Committee, has made arrangements whereby the Musical Club members will be entertained over night at the homes of members of the society.

The Johnstown concert will be the fourteenth since the opening of the season. Plans had been made for a fifteenth concert to be held at Saratoga, but on account of the unsettled times and consequent increase in ex-curriculum duties such as the various military training courses now being held, the faculty decided to curtail these plans. The season just drawing to a close has been one of the most successful in the history of the musical clubs and to all those who by their efforts helped to attain this success are due the congratulations of the college.

The annual election of leaders for the coming year will take place in the near future.

Both Houses of the New Jersey State Legislature voted in favor of making Rutgers College the State University, in view of her services to the State.

HORACE ALWYNE TO PLAY HERE TONIGHT

Talented Pianist Will Appear in
Recital with Varied
Program.

Great interest has been aroused in the concert tonight at the Chapel when Horace Alwyne will appear in a lecture recital, including a pleasing program of piano numbers. The interpretive recitals of Mr. Alwyne are always popular and as he is soon to become the organist of the First Reformed Church there is special interest in his concert appearance here. Mr. Alwyne is a member of the music faculty of the Skidmore School of Music and is widely known as a soloist of great talent. The tickets for the concert are on sale at the music stores and can be procured at the chapel the night of the concert.

Mr. Alwyne is descended from a family of musicians; his father also was a distinguished pianist and conductor and noted as one of the finest interpreters of Chopin. Mr. Alwyne's musical studies were undertaken by Professor Max Mayer, the well known pianist and composer. At the age of sixteen he was successful in gaining the Sir Charles Halle Memorial Scholarship at the Royal Manchester College of Music, being the youngest student ever to hold this coveted honor. On leaving he was awarded the gold medal of the college, and later continued his studies in Berlin under the noted Polish pianist, Michael von Tabora.

CLASS OF 1897 GIVES \$500 TO COLLEGE

Money Raised for Twentieth Reunion of Class to be Used in Military Plans of College.

The Class of 1897 has given \$500 to President Richmond for use in the military preparedness plans at college. The money was raised by the class to defray expenses of costumes at the twentieth reunion of the class at Commencement this June, but in view of the present crisis it was decided that the fund could be used to better advantage by the college.

The check was sent to President Richmond by County School Superintendent James Wingate who is treasurer of the class of 1897. The fund will not be used for any special phase of the military plans of the college, but will go towards the general expenses which may arise in connection with the preparedness work.

GROUND BROKEN FOR CHEM. BUILDING

(Continued from page 1)

who also turned up a spadeful of dirt. Mrs. Richmond and Mrs. Ellery were the next to break the turf. They were followed by some members of the faculty connected with the scientific departments.

At the firing of a signal gun red fire torches marking the outlines of the building blazed forth, with torches of green flame to indicate the entrances. At the close of the ceremony Hugh J. Williams, '17, led the crowd in singing the Alma Mater.

Work will begin at once on the new building, which is to be located on North College lane on a line with the gym. The Amsterdam Building Company, of New York, already has most of the equipment at the site.

The band will resume its weekly rehearsals next Tuesday evening, and at this time officers for the coming year will be elected. All members are requested to be present.

SPEAKERS FOR UNDER-CLASS DEBATE CHOSEN

Charter Form of City Government Will Be Subject of Debate.

The try-outs for the Sophomore-Freshman debate took place yesterday afternoon. The Sophomores who were chosen were William Watts, Roland LeGrange, and Charles A. Brind, captain, with Samuel E. Davis as alternate. The Freshman team will be made up of John Hoag, Stuart MacMillan and William Smith, captain. The subject that will be debated is, "Resolved, That the City of Schenectady shall adopt the proposed charter of City Managership." The judges of the try-

PREXY SPEAKS AT ALUMNI DINNER IN ALBANY

At a dinner of Union College alumni at the University Club in Albany Tuesday evening, President Charles Alexander Richmond told of the stand taken by the trustees with regard to the part Union shall play in military affairs, and outlined the policy to be adopted in the next twelve months. He spoke of the plan to institute a reserve officers' training corps at the college next fall.

At the close of the dinner officers were elected for the coming year. The program of the meeting included a film taken at the last commencement, showing the festivities and scenes familiar to the graduates. Some members of the Musical Clubs gave an informal entertainment during the dinner.

The elections of the Glee Club will be held in Silliman Hall at seven o'clock Monday evening. All members are requested to be present.

Until further notice the Laboratory Periods in Physics will be at 1 P. M. and 2:30 P. M.

Ohio University at Athens is planning to adopt at the beginning of the next term, a system of grading students from their every day work in college instead of through examinations.

outs were Prof. McKean, Clyde Heatly, and Leslie Uphoff. The date for the debate has not been decided as yet, but it will be held in the near future.

WILL NOT FORM SEPERATE COMPANIES

(Continued from page 1)

perfect understanding. He tells me that his idea from the start has been not the forming of an engineering company but the training of officers for the engineering branch of the service. He may not have made this clear to you but he has made it clear to me.

"As you know, Dr. Landreth, at his own request, will retire from active service in the college at the end of this academic year and instruction in military engineering as in all other branches of military service, will be under the direct control of the regular officer who may be assigned here. Any idea, therefore, that you may possibly have that enrollment as a separate engineering unit shall be recognized, is of course not well founded. We are acting here, and must act, as a college and not as a collection of departments. As I have said, this explanation may not be necessary but perhaps it will make the situation more clear in the minds of some of you. For the present the control of all our military instruction in the college is centered in the Faculty Advisory Committee and, if I may add with egotism, the president expects now and again to be consulted."

BASEBALL SCHEDULE NOT TO BE CANCELLED

Management Endeavoring to Secure Games to Replace Columbia Dates.

There has been some doubt in the minds of many students as to whether or not the baseball schedule will be cancelled. Some of the larger colleges have cancelled their schedules for this spring, due to the interference of their athletics with their program for preparedness. The Athletic Board, however, has decided against cancelling the program, but it has limited practice to times when it will not interfere with military drill. Accordingly baseball practice will be held at 2:30 on Tuesday and Thursday afternoons.

The baseball management is endeavoring to secure games to take the place of the two scheduled with Columbia. Columbia is one of the colleges which has cancelled its program, and thus Union has two open dates.
